*Daniela Steiner takes a fresh approach  
to the global spa scene*

- WINNER OF 'BEST HOTEL SPA IN EUROPE, ASIA MINOR & THE RUSSIAN FEDERATION'
- SECOND IN 'THE WORLD'S TOP 25 SPAS'

— DANIELA STEINER BEAUTY SPA, ROSA ALPINA HOTEL & SPA

The spa industry needs more people like Daniela Steiner. Over the last two decades she has created a truly exceptional brand, unique in its concept and close to perfection in its style. This is a wellbeing journey that is discreetly becoming a worldwide beauty phenomenon.

Exclusive but attainable, the first Daniela Steiner spa was launched at Rosa Alpina hotel in the heart of the Dolomites. It was 1989 and the luxury spa industry was in its infancy. Inspired by her love for the mountains (she was born in the North Tyrol), the concepts of vitality and purity were at its heart. Today, this core focus remains and is complemented by an emphasis on quality, detail and service. It has proved a winning formula. Twenty-one years on, a Daniela Steiner spa has been voted 'Best Hotel Spa' in Europe, Asia Minor & the Russian Federation, as well as claiming the runner-up position in our 'World's Top 25 Spas'.

This winning beauty philosophy is central to Steiner's nine spas, none of which compromises the quality of what is essentially still a family business. Exuding luxury and elegance, each spa has a fresh radiance worthy of its alpine roots, as well as the same outlook based on healthy skin, holistic wellbeing and the utmost respect for the environment. From Sicily's Hotel Kempinsky to the Four Seasons Sharm El Sheikh, these cocoon-like escapes guarantee a truly exceptional experience that merges mind and body to provide a unique top-to-toe rejuvenation programme.

Care and relaxation is key. From the moment you walk in for your 'beauty check' the service is faultless. Nothing is too much trouble and specific programmes and products are customised for each individual need. Original treatments have also been created for each location. At Rosa Alpina there's the 'Essences of Dolomites Garden', an intense body massage using warm oil and linen pouches containing crushed pine needles. At Il Ciocco in Lucca, the 'Thousand Roses' uses petals from the garden combined with milk and honey to nourish and firm the skin.

Above all, Daniela Steiner understands the human need to be pampered and the sense of vitality that stems from her alpine roots has helped to create nine extraordinary escapes. With more spas opening and her exclusive product line recently extended, we're sure there are many more awards to come.
